|----------|--------------------------------------------------------------------------------------------------------------------|
| Backend  | PHP, Laravel (MVC, Eloquent ORM, migrations, middleware), MySQL, REST APIs, authentication and authorization, CRUD |
| Frontend | HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, Blade                                                            |
| Design   | Wireframes, user flows, interactive prototypes, design systems, branding assets                                    |
| Tools    | VS Code, Git, GitHub, Postman, XAMPP, Laravel Artisan                                                              |

## EXPERIENCE

**Website Developer** · Devnestic Solutions 2025 to present

- Design responsive websites and mobile applications with a focus on user experience, usability and modern design standards.
- Create wireframes, user flows, interactive prototypes and design systems for dashboards, landing pages, SaaS platforms and corporate websites, and work with the development team so each design is implemented as intended.
- Produce branding materials and marketing assets that keep a product's visual identity consistent.

**Management Team Member** · Sufa International College & University, Sheikhpura

- Worked as part of the college's management team.

## PROJECTS

**Excellence Hub** · Freelancing and project management platform Laravel, MySQL, Blade

- Developed a Laravel-based freelancing platform that connects buyers with companies and professional service providers.
- Enabled buyers to post projects, define requirements and submit project requests to suitable companies.
- Implemented project management for buyers, companies and administrators, with responsive interfaces on a structured, database-driven backend.

**One Ten Exporter** · Responsive e-commerce website Laravel, MySQL, JavaScript

- Developed a responsive Laravel e-commerce website for showcasing and selling products online.
- Implemented dynamic product listings, categories, product details and intuitive navigation, optimized for desktop, tablet and mobile.
- Developed backend functionality for managing website content and product data.

## EDUCATION

**BS Information Technology** · Government University Faisalabad GPA 3.00

Coursework: object-oriented programming, database management systems, operating systems, computer networks, software engineering, artificial intelligence, machine learning, web development, discrete mathematics.
